# DARRASLAW

**F** RANK N. DARRAS MADE A DECISION, NEARLY A QUARTER CENTURY ago, that would affect tens of thousands of Americans. Darras took the road less traveled to help the sick, disabled and the elderly mount a heroic fight against billion dollar insurance companies.

**DARRAS' LIFE WORK IS PROTECTING THE DISABLED AND SENIOR** citizens. He founded DarrasLaw, the nation's largest insurance litigation, disability and long-term care practice in the country. From the headquarters in Ontario, California, he is able to help people from all walks of life; from professional athletes, doctors, lawyers, business owners, to the blue collar worker. Darras gives the same expert advice to the trucker, dock worker or CEO. With Darras, policyholders recover the insurance benefits they dearly paid for, and richly deserve. "It doesn't matter whether it's fifty dollars, or five million a month. It's never about the money. It's always about helping good, honest people," Darras says.

**MR. DARRAS REVIEWS 2500 NEW REFERRALS A MONTH FROM ALL** over the country. This allows him to continuously monitor insurance company claims, policies and procedures. If an insurance carrier institutes an unreasonable new claim tactic or denial strategy, Darras is able to identify the problem and analyze the impact before the average disability lawyer encounters it for the first time. Not only has this resulted in quicker results for his clients, but it has helped him to earn the respect of the insurance industry.

**FRANK N. DARRAS HAS BEEN HONORED WITH TOP 500 LAWYERS** in America by *LawDragon*, Top 500 Litigators in America, Top 500 Plaintiff Lawyers in America, and *The Best Lawyers in America*®. Darras has also been named to *Super Lawyers* and recognized by *Outstanding Lawyers in America*. His national success has led him to be repeatedly honored as "Top Lawyers" by Corporate Counsel and named as one of The American Trial Lawyer Association's "Top 100 Trial Lawyers". DarrasLaw is the nation's top disability and long term care insurance litigation firm. He is AV preeminent rated by Martindale-Hubbell. Darras has recovered more than a half a billion dollars in wrongfully denied insurance benefits. He is a member of the coveted 10 Million Dollar Annual Rainmaker Circle, for lawyers who generate 10 million dollars in annual attorney fees.

**MR. DARRAS HAS SEEN, EVALUATED, LITIGATED, AND RESOLVED** more disability and long term care cases than any firm in America. His practice is in a disability league of its own. Darras says, "I know my name means real protection for senior citizens and those disabled from sickness or injury. At DarrasLaw, we hold big insurance companies accountable."
